

Dear Homeowner:

Verizon is transforming itself into a next - generation broadband company. In the near future you will see. workers in your area installing a pathway for the. latest fiber technology in facilities under and above ground to bring the future of telecommunications. to your community.

It is our goal to complete this work with little disturbance. or disruption to you. As previously requested, please. mark out or call our contractor, Danella Line Services, directly to identify any private underground facilities. (sprinklers; electrical light or dog fences) that you have placed in the public right of way area, such as the portion of your lawn adjacent to the sidewalk.

In the event our work causes you any concern you may contact our contractor at this toll free number: **1-800-321-1904**

Thank you for your Understanding
Danella Line Services Co., Inc.
